Information about this licence

Dictionary

A definition of terms used in the licence can be found in the dictionary at the end of this licence.

Responsibilities of licensee

Separate to the requirements of this licence, general obligations of licensees are set out in the Protection of the Environment Operations Act 1997 (“the Act”) and the Regulations made under the Act. These include obligations to:

- ensure persons associated with you comply with this licence, as set out in section 64 of the Act;
- control the pollution of waters and the pollution of air (see for example sections 120 - 132 of the Act);
- report incidents causing or threatening material environmental harm to the environment, as set out in Part 5.7 of the Act.

Variation of licence conditions

The licence holder can apply to vary the conditions of this licence. An application form for this purpose is available from the EPA.

The EPA may also vary the conditions of the licence at any time by written notice without an application being made.

Where a licence has been granted in relation to development which was assessed under the Environmental Planning and Assessment Act 1979 in accordance with the procedures applying to integrated development, the EPA may not impose conditions which are inconsistent with the development consent conditions until the licence is first reviewed under Part 3.6 of the Act.

Duration of licence

This licence will remain in force until the licence is surrendered by the licence holder or until it is suspended or revoked by the EPA or the Minister. A licence may only be surrendered with the written approval of the EPA.

Licence review

The Act requires that the EPA review your licence at least every 5 years after the issue of the licence, as set out in Part 3.6 and Schedule 5 of the Act. You will receive advance notice of the licence review.

Fees and information to be sent to the EPA

For each licence fee period you must pay:

- an administrative fee; and
- a load-based fee (if applicable).

Environment Protection Licence

Usually, the licence fee period is the same as the reporting period.

The EPA publication “A Guide to Licensing” contains information about how to calculate your licence fees.

A licence subject to load-based licensing (LBL) requires an Annual Return to be submitted to the EPA, comprising a Statement of Compliance for Load Based Fee Calculation for each assessable pollutant required by the licence. The Annual Return must be submitted by the “due date”, as defined in the dictionary at the end of the licence. Refer to the Annual Return reporting requirements under Section 6 “Reporting Conditions”.

Transfer of licence

The licence holder can apply to transfer the licence to another person. An application form for this purpose is available from the EPA.

Public register and access to monitoring data

Part 9.5 of the Act requires the EPA to keep a public register of details and decisions of the EPA in relation to, for example:

- licence applications;
- licence conditions and variations;
- statements of compliance;
- load based licensing information; and
- load reduction agreements.

Under s320 of the Act application can be made to the EPA for access to monitoring data which has been submitted to the EPA by licensees.

This licence is issued to:

<u>Licensee</u>
SWF1 OPERATIONS PTY LTD
PO BOX 1189
ALDINGA BEACH SA 5173

subject to the conditions which follow.

1 Administrative Conditions

A1 What the licence authorises and regulates

A1.1 This licence authorises the carrying out of the scheduled activities listed below at the premises specified in A2. The activities are listed according to their Scheduled Activity (Act) classification, Licensing Fee Category (Regulation) classification and the scale of the operation.

Unless otherwise further restricted by a condition of this licence, the scale at which the activity is carried out must not exceed the maximum scale specified in this condition.

<u>Scheduled Activity (Act)</u>	<u>Licensing Fee Category (Regulation)</u>	<u>Scale</u>
Electricity generation - Electricity works (wind farms)	Electricity works (wind farms)	> 450 - 1000 GWh annual generating capacity

A2 Premises or plant to which this licence applies

A2.1 The licence applies to the following premises:

<u>Premises Details</u>
Sapphire Wind Farm
CNR WESTERN FEEDER AND WATERLOO ROAD
INVERELL NSW 2360
LOT 212//DP750121, LOT 2//DP1176646, LOT 2//DP435844, LOT 90//DP750121, LOT 15//DP750121, LOT 9//DP750121, LOT 13//DP750121, LOT 1//DP435844, LOT 92//DP750121, LOT 52//DP750121, LOT 17//DP750121, LOT 16//DP750121, LOT 139//DP750121, LOT 18//DP750121, LOT 209//DP750121, LOT 1//DP128314, LOT 103//DP651984, LOT 1//DP1140309, LOT 265//DP750076, LOT 266//DP750076, LOT 267//DP750076, LOT 268//DP750076, LOT 132//DP753305, LOT 2//DP1188925, LOT 1//DP113968, LOT 2//DP872156, LOT 2//DP1072905, LOT 1//DP1200772, LOT 2//DP1200772, LOT 3//DP1200772, LOT 4//DP1200772, LOT 81//DP753305, LOT 99//DP753316, LOT 7013//DP1118934, LOT 54//DP753319, LOT 2//DP1229026, LOT 1//DP1229026, LOT 202//DP127324

A2.2 In addition to Condition A2.1, the premises is graphically defined by the project site enclosed by blue lines in the image:

a) Sapphire Wind Farm Pty Ltd - EPL Premises Map - Drawing No. SAP-191, dated 14 February 2022.

Contained on EPA electronic file DOC22/109453.

A3 Information supplied to the EPA

A3.1 Works and activities must be carried out in accordance with the proposal contained in the licence application, except as expressly provided by a condition of this licence.

In this condition the reference to "the licence application" includes a reference to:

- a) the applications for any licences (including former pollution control approvals) which this licence replaces under the Protection of the Environment Operations (Savings and Transitional) Regulation 1998; and
- b) the licence information form provided by the licensee to the EPA to assist the EPA in connection with the issuing of this licence.

2 Limit Conditions

L1 Pollution of waters

L1.1 Except as may be expressly provided in any other condition of this licence, the licensee must comply with section 120 of the Protection of the Environment Operations Act 1997.

L2 Waste

L2.1 The licensee must not cause, permit or allow any waste generated outside the premises to be received at the premises for storage, treatment, processing, reprocessing or disposal or any waste generated at the premises to be disposed of at the premises, except as expressly permitted by the licence.

L2.2 The licensee must ensure that all liquid and/or non-liquid waste generated on the site are assessed and classified in accordance with the NSW EPA Waste Classification Guidelines and where removed from the site, transported to a waste facility that can lawfully receive the waste.

L2.3 The incineration of waste, including green waste on site is not permitted unless expressly permitted by the licence.

L3 Noise limits

L3.1 For wind speeds from cut in to rated power of the wind turbine generators, wind turbine noise generated from the premises at the nearest non-project related residences must not exceed the greater of:

(a) 35dB(A); or

(b) the existing background noise level plus 5dBA for each integer wind speed at 10 meters above ground level at the level at the wind farm site.

Environment Protection Licence

This condition applies to all non-project related residences (residences in existence at the date of the DPE Project Approval, MP09_0093 MOD 1, 30 June 2016).

Note: For the purpose of determining compliance with Condition L3.2 the locations and noise limits LA (eq,10) in the table below apply. The locations referred to in the table below are defined in condition L 3.3.

Location	3 4 5 6	7 8 9 10	11 12	Interger Wind Speed (m/s) at 10 metres AGL
R25, R84, R87	35 35 35 35	36 39 41 45	51 57	
R27, R29, R30, R32, R89, R90	35 35 35 36	36 37 39 42	46 52	
R35	35 35 35 36	37 38 40 42	45 49	
R78	35 35 35 37	40 44 47 48	48 46	
R10, R48	35 35 35 38	41 45 48 51	53 54	
R47	35 35 35 37	41 44 48 52	55 58	
R39, R40, R41, R42, R44, R45, R46	35 35 36 37	38 40 43 48	56 66	
R7	43 43 44 46	47 48 49 49	49 49	
R17	43 44 45 46	47 48 50 53	56 60	

L3.2 Location data for the nearest non-project associated residences referred to on condition L3.2 can be found in the table below.

Location	Name	Easting (m)	Northing (m)
R7	Kings Land	355281	6711556
R10	Mt Buckley	356198	6706640
R17	Stratham	348058	6714317

R86	Millie	346918	6720977
R87	Croye	345670	6720193
R89	Tomali Park	341348	6716963
R90	Wirra Willa	340648	6716052

L3.3 Noise generated from ancillary infrastructure from the premises must not exceed 35 dB(A) $L_{Aeq}(15$ minutes) at any non-project related residences.

L3.4 Notwithstanding Conditions L3.2 & L3.4, the noise limit specified under that condition does not apply to any residence where a noise agreement is in place between the licensee and the respective landowner(s) in relation to noise impacts and/or noise limits.

Environment Protection Licence

- L3.5** The noise limit specified in condition L3.4 applies under all meteorological conditions except for any of the following:
- (a) wind speeds greater than 3 metres/second at 10 metres above ground level; or
 - (b) temperature inversion conditions between 1.5°C and 3°C/100m and wind speeds greater than 2 metres/second at 10 metres above ground level; or
 - (c) temperature inversion conditions greater than 3°C/100m.

L3.6 The noise criteria under Condition L3.2 for the wind turbines are to apply under all meteorological conditions.

L3.7 For the purposes of condition L3.2, wind speed is to be measured directly in accordance with a method nominated by the proponent and at a location nominated by the proponent, consistent with the method and location used to determine the background noise regression curves in the Noise Impact Assessment.

L3.8 For the purpose of condition L3.2, noise must be determined in accordance with the methodology in the

Environmental Noise Guidelines: Wind Farms (SA EPA 2003). The modification factors in Section 4 of those guidelines must be applied, as appropriate, to the noise levels measured by the noise monitoring equipment

L3.9 For the purpose of condition L3.9, the presence of excessive tonality (a special noise characteristic) must be determined in accordance with ISO 1996.2:2007 *Acoustics - Description, measurement and assessment of environmental noise - Determination of environmental noise levels*.

If tonality is found to be a repeated characteristic of the wind turbine noise, 5 dBA should be added to measured noise level from the wind farm. If tonality is only identified for certain wind directions and speeds, the penalty is only applicable under these conditions.

The tonal characteristic penalty applies only if the tone from the wind turbine is audible at the relevant receiver. Absence of tone in noise emissions measured at an intermediate location is sufficient proof that the tone at the receiver is not associated with the wind farm's operation.

The assessment for tonality should only be made for frequencies of concern from 25 Hz to 10 kHz and for sound pressure levels above the threshold of hearing (as defined in ISO 389.7:2005 *Acoustics - Reference zero for the calibration of audiometric equipment - Part 7: Reference threshold of hearing under free-field and diffuse-field listening conditions*).

The maximum penalty to be added to the measured noise level from the wind farm for any special noise characteristic individually or cumulatively is 5 dB(A).

L3.10 To determine compliance with Condition L3.4, the modification factors presented in Section 4 of the *New South Wales Industrial Noise Policy* (NSW EPA, 2000) must be applied to the measured noise level where applicable.

- L3.11** To determine compliance:
- a) with the noise limits in condition L3.2 & L3.4, the noise measurement equipment must be located:
 - . approximately on the property boundary, where any dwelling is situated 20 metres or less from the property boundary closest to the premises; or
 - . within 20 metres of a dwelling facade, but not closer than 5m, where any dwelling on the property is situated more than 20 metres from the property boundary closest to the premises.
 - b) with the noise limits in condition L3.2, the noise measurement equipment must be located:
 - . at the most affected point at a location where there is no dwelling at the location; or
 - . at the most affected point within an area at a location prescribed by condition L3.3.

Noise levels are determined in accordance with the methodology provided in the *Environmental Noise Guidelines: Wind Farms* (South Australia EPA, 2009) for condition L3.2 and the *Industrial Noise Policy* (NSW EPA 2000) for condition L3.4.

- L3.12** A non-compliance of condition L3.2 will still occur where noise generated from the premises in excess of the appropriate limit is measured:
- . at a location other than an area prescribed by conditions L3.12(a) and L3.12(b); and/or
 - . at a point other than the most affected point at a location.

3 Operating Conditions

01 Activities must be carried out in a competent manner

- 01.1** Licensed activities must be carried out in a competent manner.
This includes:
- a) the processing, handling, movement and storage of materials and substances used to carry out the activity; and
 - b) the treatment, storage, processing, reprocessing, transport and disposal of waste generated by the activity.

02 Maintenance of plant and equipment

- 02.1** All plant and equipment installed at the premises or used in connection with the licensed activity:
- a) must be maintained in a proper and efficient condition; and
 - b) must be operated in a proper and efficient manner.

03 Dust

- 03.1** All operations and activities occurring at the premises must be carried out in a manner that will minimise the emission of dust from the premises.

O4 Other operating conditions

- O4.1** The licensee must store and handle all chemicals on site in accordance with the *Storing and Handling Liquids: Environmental Protection, Participants Manual: Appendix: Technical Considerations* (DECC, 2007).

4 Monitoring and Recording Conditions

M1 Monitoring records

- M1.1** The results of any monitoring required to be conducted by this licence or a load calculation protocol must be recorded and retained as set out in this condition.
- M1.2** All records required to be kept by this licence must be:
- in a legible form, or in a form that can readily be reduced to a legible form;
 - kept for at least 4 years after the monitoring or event to which they relate took place; and
 - produced in a legible form to any authorised officer of the EPA who asks to see them.
- M1.3** The following records must be kept in respect of any samples required to be collected for the purposes of this licence:
- the date(s) on which the sample was taken;
 - the time(s) at which the sample was collected;
 - the EPA point identification number for the point at which the sample was taken; and
 - the name of the person who collected the sample

M2 Recording of pollution complaints

- M2.1** The licensee must keep a legible record of all complaints made to the licensee or any employee or agent of the licensee in relation to pollution arising from any activity to which this licence applies.
- M2.2** The record must include details of the following:
- the date and time of the complaint;
 - the method by which the complaint was made;
 - any personal details of the complainant which were provided by the complainant or, if no such details were provided, a note to that effect;
 - the nature of the complaint;
 - the action taken by the licensee in relation to the complaint, including any follow-up contact with the complainant; and
 - if no action was taken by the licensee, the reasons why no action was taken.
- M2.3** The record of a complaint must be kept for at least 4 years after the complaint was made.
- M2.4** The record must be produced to any authorised officer of the EPA who asks to see them.

M3 Telephone complaints line

- M3.1** The licensee must operate during its operating hours a telephone complaints line for the purpose of receiving any complaints from members of the public in relation to activities conducted at the premises or by the vehicle or mobile plant, unless otherwise specified in the licence.
- M3.2** The licensee must notify the public of the complaints line telephone number and the fact that it is a complaints line so that the impacted community knows how to make a complaint.
- M3.3** The preceding two conditions do not apply until 3 months after the date of the issue of this licence.

5 Reporting Conditions

R1 Compliance, and annual reporting requirements

Compliance with licence conditions

- R1.1** The licensee must supply the EPA, via the EPA's online digital portal, the following details of any non-compliance with the conditions of the licence within 21 days after the licensee becomes aware of the non-compliance:
- the date the licensee became aware of the non-compliance;
 - the date(s) the non-compliance occurred, including if the non-compliance is continuing;
 - whether the non-compliance relates to air, water/land, noise or waste matters (if applicable);
 - whether the non-compliance relates to a pollution incident;
 - the licence condition(s) not complied with;
 - a summary of particulars of the non-compliance, including (if known):
 - the location where the non-compliance occurred;
 - the duration of the non-compliance;
 - if the non-compliance is continuing, the suspected end date of the non-compliance;
 - the cause or suspected cause of the non-compliance;
 - any action taken, or proposed to be taken, to mitigate the effects of the non-compliance; and
 - any action taken, or proposed to be taken, to prevent a recurrence of the non-compliance.
- R1.2** The EPA may make a written request for further details in relation to each non-compliance reported in accordance with Condition R1.1. The licensee must provide such further details to the EPA, via the EPA's online digital portal, within the time specified in the request.
- R1.3** Condition R1.1 does not apply where a non-compliance with a licence condition has been identified by the EPA as part of an EPA environmental compliance audit.

Reporting transition arrangements

- R1.4** By 05 August 2026, the licensee must supply to the EPA, via the EPA's online digital portal the details required in Condition R1.1 for any non-compliance with the conditions of the licence that occurred:
- after the date the licensee supplied their last Statement of Compliance - Licence Conditions to the EPA, and

- ii. before the date of the notice of variation of licence that added this condition to this Licence.

Pollution monitoring data summary

R1.5 If the licensee undertakes monitoring as a result of a licence condition, the licensee must supply to the EPA a summary of the results of the pollution monitoring data in respect of each reporting period. The summary must be provided as a Microsoft Excel file, formatted with the following column headings:

- a. EPA point identification number;
- b. pollutant;
- c. unit of measure;
- d. number of samples required;
- e. number of samples collected and analysed;
- f. lowest sample value;
- g. mean of sample values; and
- h. highest sample value.

The pollution monitoring data summary for the reporting period must be supplied to the EPA via the EPA's online digital portal by the "due date", as defined in the dictionary at the end of this licence.

R2 Notification of environmental harm

R2.1 Notifications must be made by telephoning the Environment Line service on 131 555.

Note: The licensee or its employees must notify all relevant authorities of incidents causing or threatening material harm to the environment immediately after the person becomes aware of the incident in accordance with the requirements of Part 5.7 of the Act.

R2.2 The licensee must provide written details of the notification to the EPA within 7 days of the date on which they became aware of the incident.

R3 Written report

R3.1 Where an authorised officer of the EPA suspects on reasonable grounds that:

- a) where this licence applies to premises, an event has occurred at the premises; or
- b) where this licence applies to vehicles or mobile plant, an event has occurred in connection with the carrying out of the activities authorised by this licence, and the event has caused, is causing or is likely to cause material harm to the environment (whether the harm occurs on or off premises to which the licence applies), the authorised officer may request a written report of the event.

R3.2 The licensee must make all reasonable inquiries in relation to the event and supply the report to the EPA within such time as may be specified in the request.

R3.3 The request may require a report which includes any or all of the following information:

- a) the cause, time and duration of the event;
- b) the type, volume and concentration of every pollutant discharged as a result of the event;
- c) the name, address and business hours telephone number of employees or agents of the licensee, or a specified class of them, who witnessed the event;
- d) the name, address and business hours telephone number of every other person (of whom the licensee is aware) who witnessed the event, unless the licensee has been unable to obtain that

Environment Protection Licence

information after making reasonable effort;

e) action taken by the licensee in relation to the event, including any follow-up contact with any complainants;

f) details of any measure taken or proposed to be taken to prevent or mitigate against a recurrence of such an event; and

g) any other relevant matters.

- R3.4** The EPA may make a written request for further details in relation to any of the above matters if it is not satisfied with the report provided by the licensee. The licensee must provide such further details to the EPA within the time specified in the request.

6 General Conditions

G1 Copy of licence kept at the premises or plant

- G1.1** A copy of this licence must be kept at the premises to which the licence applies.
- G1.2** The licence must be produced to any authorised officer of the EPA who asks to see it.
- G1.3** The licence must be available for inspection by any employee or agent of the licensee working at the premises.

Dictionary

General Dictionary

3DGM [in relation to a concentration limit]	Means the three day geometric mean, which is calculated by multiplying the results of the analysis of three samples collected on consecutive days and then taking the cubed root of that amount. Where one or more of the samples is zero or below the detection limit for the analysis, then 1 or the detection limit respectively should be used in place of those samples
Act	Means the Protection of the Environment Operations Act 1997
activity	Means a scheduled or non-scheduled activity within the meaning of the Protection of the Environment Operations Act 1997
actual load	Has the same meaning as in the Protection of the Environment Operations (General) Regulation 2022
AM	Together with a number, means an ambient air monitoring method of that number prescribed by the Approved Methods for the Sampling and Analysis of Air Pollutants in New South Wales.
AMG	Australian Map Grid
anniversary date	The anniversary date is the anniversary each year of the date of issue of the licence. In the case of a licence continued in force by the Protection of the Environment Operations Act 1997, the date of issue of the licence is the first anniversary of the date of issue or last renewal of the licence following the commencement of the Act.
Approved Methods Publication	Has the same meaning as in the Protection of the Environment Operations (General) Regulation 2022
assessable pollutants	Has the same meaning as in the Protection of the Environment Operations (General) Regulation 2022
BOD	Means biochemical oxygen demand
CEM	Together with a number, means a continuous emission monitoring method of that number prescribed by the <i>Approved Methods for the Sampling and Analysis of Air Pollutants in New South Wales</i> .

Environment Protection Licence

COD	Means chemical oxygen demand
composite sample	Unless otherwise specifically approved in writing by the EPA, a sample consisting of 24 individual samples collected at hourly intervals and each having an equivalent volume.
cond.	Means conductivity
due date	Means: <ol style="list-style-type: none"> i) not later than 60 days after the end of each reporting period; or ii) in the case of a transferring licence - not later than 60 days after the date the transfer was granted.
environment	Has the same meaning as in the Protection of the Environment Operations Act 1997
environment protection legislation	Has the same meaning as in the Protection of the Environment Administration Act 1991
EPA	Means the Environment Protection Authority of New South Wales.
EPA Online digital portal	Means eConnect EPA
general solid waste (non-putrescible)	Has the same meaning as in Part 3 of Schedule 1 of the Protection of the Environment Operations Act 1997
flow weighted composite sample	Means a sample whose composites are sized in proportion to the flow at each composites time of collection.
general solid waste (putrescible)	Has the same meaning as in Part 3 of Schedule 1 of the Protection of the Environment Operations Act 1997
grab sample	Means a single sample taken at a point at a single time
hazardous waste	Has the same meaning as in Part 3 of Schedule 1 of the Protection of the Environment Operations Act 1997
licensee	Means the licence holder described at the front of this licence
Licensing Fee Category (Regulation)	Means the numbered short descriptions in Schedule 1 of the Protection of the Environment Operations (General) Regulation 2022.
load calculation protocol	Has the same meaning as in the Protection of the Environment Operations (General) Regulation 2022

Environment Protection Licence

local authority	Has the same meaning as in the Protection of the Environment Operations Act 1997
material harm	Has the same meaning as in section 147 of the Protection of the Environment Operations Act 1997
MBAS	Means methylene blue active substances
Minister	Means the Minister administering the Protection of the Environment Operations Act 1997
mobile plant	Has the same meaning as in Part 3 of Schedule 1 of the Protection of the Environment Operations Act 1997
motor vehicle	Has the same meaning as in the Protection of the Environment Operations Act 1997
O&G	Means oil and grease
Percentile [in relation to a concentration limit of a sample]	Means that percentage [eg.50%] of the number of samples taken that must meet the concentration limit specified in the licence for that pollutant over a specified period of time. In this licence, the specified period of time is the Reporting Period unless otherwise stated in this licence.
plant	Includes all plant within the meaning of the Protection of the Environment Operations Act 1997 as well as motor vehicles.
pollution incident	Has the same meaning as in the Protection of the Environment Operations Act 1997
Pollution of waters [or water pollution]	Has the same meaning as in the Protection of the Environment Operations Act 1997
premises	Means the premises described in condition A2.1
public authority	Has the same meaning as in the Protection of the Environment Operations Act 1997
